Sell—Buy—Swap—Info

Wanted Your stories

Hi all, last month we had our best display at the North Queensland Field Day. I think that we had more people check out our display than we have had in the past, well since I have been going. Maybe Lee Kernigan had something to do with it.

Sunday 18th May the day after the Field we went to TCC Heritage day at West End Park. It was shaping up to be a good event but the weather had different ideas sending over scuds of rain. The people eventually gave up and we closed up a little earlier. Jacko (Shane) may have had something to do with the weather as he was displaying a shortened Hills Hoist with his washing pegged out, it will be banned next year, just in case.

Last month I gave you the wrong date for our AGM it has been moved to the 18th of July, to be held at Brian Pump’s place. This is not the last Friday in the month.

This Sunday we are displaying at the Cathedral School for All British Day.

Keith.

Ian and Dan remove the fuel tank for repairs while Tom watches the progress. Our Case tractor had just been removed from Tom Callows Toy Box to get it ready for the QHR rally.

The notches can be seen in the flywheel to engage a starting handle. A curved movable brake shoe prevents the flywheel kicking back.
North Queensland Machinery Preservationists

Left. Three immaculately restored engines at the Field Day. Tony Binder’s Lister D and Stover, with Gary Blyth’s red Lister D at the end of the line.

Below. A collection of well presented Push Mowers from Ian Matthews

For all your insulating requirements on roofs, mobile homes, caravans etc. see the new space age Thermashield from Jesse’s Quality Paints - Your One Stop Paint Store - 14 Carlton St Kirwan
Above. Shane hanging out his washing on a Hills Hoist.

Left. Ian showing his unidentified engine for the first time. The engine came from Magnetic Island a few years ago. The old fire extinguisher is his cooling tank.
